BOBBY KOUNTZ

Inspirationalist | International | Speaker | Sobriety Scholar | Author

Bobby Kountz is an Inspirationalist! He inspires with words both written and spoken. He breathes courage into anyone who will listen! He helps clients see their potential, not someday, but NOW! Bobby has multiple messages of both courage and inspiration. Using storytelling as a vehicle, Bobby paints a picture of a future so bright and so exciting, it takes restraint just to sleep. No pushing is required when the vision is so compelling it launches you out of bed with excitement and anticipation. Bobby helps his audiences paint pictures of excitement and anticipation.

Bobby helps his audiences reframe their questions from "How" to "Who" and "What?" Knowing who we need to be or become to achieve the results we desire is accomplished by making a commitment to master the skills necessary to achieve our intentional results.

Courage comes from the confidence of doing! It's counterintuitive to the idea that I'll do it when I'm ready.

News flash, we're never ready...

Bobby's book, **THE SOMEDAY SOLUTION**, is based on what he learned looking back on his journey of going from the couch to the completion of a two-day, 192-mile bike ride to raise money for cancer research. Bobby began the journey as a non-cyclist with no bike, no experience, and frankly no clue as to how he would ever achieve what seemed impossible to him at the time. As Bobby artfully tells his story from the stage, audiences are mesmerized by all of the different characters he highlights throughout the journey.

From his early days as an 8 year old entrepreneur paperboy selling his daily allotment of papers face-to-face the old-fashioned way, to winning multiple Sales Awards as a high performer in the corporate world, to completing that first 192-Mile bike ride across Massachusetts, Bobby knows what it means to make a commitment!

He will show your TEAM how to go from unsure to UNSTOPPABLE, "One Day At A Time." Using his storytelling ability and his proprietary "Pathway to Progress" he will show your TEAM how to Commit to the process so that SUCCESS will be a natural result of that commitment. He will leave your TEAM and your company with a renewed sense of purpose and passion. From Paperboy, to carpenter, to sobriety scholar, to college grad, to nurse, to sales professional, to cyclist, to cancer support group facilitator, to master storyteller, Bobby will take your TEAM on a journey they will never forget!
